Accountability Social Responsibility And Sustainability

Corning uses a consolidated and consistent template for these assessments, which addresses a wide range of criteria, including social responsibility drivers (e.g., forced labor, child labor and human trafficking), environmental factors, sustainability, health and safety, quality, and performance.

Sustainability and Corporate Social Responsibility (CSR) ...

Accountability usually involves two major responsibilities: an accountee (the responsibility to take certain actions) and an accountor (the responsibility to offer an account of those actions) (Gray et al. 2014). A simple model of accountability (Fig. 1) illustrates the relationship between an accountee (the principal) and an accountor (the agent) suggested by Gray et al. ().

Sustainable programme and project management. UNDP recognizes that social and environmental sustainability are fundamental to the achievement of sustainable de-

velopment outcomes, and therefore must be fully integrated into our Programmes and Projects. To ensure this we have the following key policies, procedures and accountability mechanisms in place to underpin our support to countries:
