This text offers an integrated approach
to teaching managerial and financial
accounting course topics for the
Introductory or principles of Accounting
course. Designed to help students
understand how to use both managerial
and financial accounting information to
make decisions, this is the only
introductory accounting book to have an
entire chapter devoted to creative and
critical thinking.

**THE IMPACT OF ACCOUNTING INFORMA-
TION ON DECISION MAKING ...**

Accounting managers play one of the
more profit- and growth-focused roles in
a company. Persons in this position, also
known as managerial accountants, have
a few distinct duties to help companies
make internal decisions that lead to
profitability and growth. Analyzing Ex-
penses and Revenue Revenue is the
money a company earns.

Accounting is sometimes referred to as a
means to an end, with the ending being
the decision that is helped by the availa-
bility of accounting information (Arnold
and Hope, 1990). Accounting systems
can aid in decision making, provide infor-
mation relevant to the decision and to
the decision maker (Gray, 1996).

In contrast, management accounting pre-
pares financial information for internal
use, specifically for making managerial
decisions and strategic plans.
