The Indian system of philosophy is the store-house which has supplied spiritual food, through the ages, to all the nations of the world. Other teachings, whatever they be, are but the sauces and the spices, useful so long as this philosophy supplies the spiritual inspiration. Yogasutra of Patanjali is divided into four chapters. It comprises aphorisms on the system of yoga. The aphorisms relate to the subject of Spiritual Absorption (Samadhi), Means of Practice (Sadhana), Accomplishments (Vibhuti) and Emancipation (Kaivalya). To expound further: Ch. I explains the grades of Spiritual Action for the restraint of the exhibitiv operations of the mind. Until that is done no yogic achievement is possible. Ch. II deals with the process of Material Action which can attenuate the gross impurities that have entered into the mind. Ch. III pertains to the Dissolutionary Change of the worldly life by means of Samyama. Ch. IV explains the working of threefold actionâ€” the present action, the stored-up action and the regulated fruitive ac-

tion. It teaches how the individual soul, released from the bond of actions, realizes the Reality of the Supreme Being wherein the individual souls merge into Brahman as rivers do into the ocean. The entire system of Yoga, in all its categories, is nowhere better treated than in this book.

It gives me immense pleasure to bring forth the second revised edition of my highly cherished work of Bhrigu Samhita, an ancient and unique treatise in predictive astrology. I was equally elated and feel ecstatic for having received encouraging as well as critical responses from the esteemed and avid readers. In deference to their valuable suggestions and also some ambiguity pointed by them, I have revised some part of the chapter on "Basic Astrology" and also brought about improvement and amplifications in certain parts of the analyses of various charts wherein the evolved principles which are specifically important in delineating horoscopes on the format of Bhrigu Samhita are further explained. This was done with a view to make the explanations more cogent in comprehend. This will also address the concern sown by the valued readers in some places of earlier narrations.

The Kularnava is perhaps the foremost Tantra of the Kaula School and is constantly cited as an authority in Tantric literature. It is worthy of close study by those who would understand the tenets and practice of the tradition of which it is a Sastra. The Introduction by Arthur Avalon gives a concise outline of the work. Sri M.P. Pandit who is a keen student of the Tantras and Vedas has rendered the work in English in eleven chapters. The readings are free translations, with annotations where necessary, omitting technical details but preserving the spirit and essential import of the original in his characteristically lucid style. The Kularnava prescribes the modes of preparation for the high quest; it draws upon ethics, religion, philosophy, yoga to elevate human life gradually to the level of godly life. It comprehends the multiple personality of man and provides for the healthy growth of his mental faculties, purification of his physical faculties through ritual, japa, mantra and upasana. Who is fit for the path of Tantra? Who is competent to guide the novice on the double - edged razor path? What is the responsibility of a Guru to a disciple? These and other relevant questions are raised and answered in a satisfying manner.

The present grammar has been prepared with a view to meet the growing educational need of university students. The author has done his best to bring the present grammar up to the requirements of the students. In writing the various chapters of this book, the author has closely followed Pannini, as explained by Bhattoji Diksita. Many of the rules given here are translations of the relevant Sutras of Panini. The original Sutras are given in footnotes, where necessary. Sandhis and declensions are fully treated; compounds which dominate classical Sanskrit literature have received special attention; formation of feminine bases has been illustrated; Taddhita affixes have been arranged in an alphabetical order. A special feature of the present grammar is the chapter on the Conjugation of Verbs. The general rules given are amply illustrated by examples. All the verbs which change their pada when preceded by particular prepositions are given in an alphabetical order. The chapter on Syntax contains almost everything given in the first 20 chapters of author's Guide to Sanskrit Composition; the chapter on Prosody is based on the Chandomanjari and

the Vrttaratnakara. The author has spared no pains to make the book as useful and as complete as possible.

Mantreswar was the greatest astrologer of the 12th century from the South of India. He compiled in Sanskrit the principles of Predictive Astrology propagated by Maharshi Parashar, Jaimini and various other great astrologers in his famous work Phaldeepika. This is one of the best books on Predictive Astrology. It includes the essence of Parashar, Jaimini and many more masters. Four hundred and fifty Yogas of Bhavartha Ratnakar of Shri Ramanuja have been added to benefit the title Phaldeepika; Bhavartha Bodhini. The 28 chapters in the book cover various topics: the characteristics, house divisions, strength of planets, career, various yogas, raja yogas, marriage, children, longevity, periodic influence of planets, the effect of transits and ashtakvargas. The 11th chapter exclusively deals with the nativity of women; the 22nd chapter gives the interpretations and calculation of the Kalachakra dashas. This English edition also includes many horoscopes, tables and a glossary of Sanskrit and Hindi words. The language is easy to understand and even beginners after studying this book for a few months will be able to arrive at the right interpretations and timing of events.

The notion that astrologers can unfold lives and reveal what waits at the next bend is a thought that comes to all and populist claims have inspired the author to come up with a series of books that will discuss the various aspects in astrology, putting together the research and findings by various groups and the experience gained during his journey. The purpose of the encyclopedia is an attempt to put a clear understanding of the process of astrology,

taking into account the first basic principles and dealing with different topics. The encyclopedia which would consist of over eighteen books, is intended to be brought out over a period of two years. These would cover the basics in astrology and then go on to the predictive techniques, the nadi astrology, tajik, yogas, nakshatras, rectification of birth time, vargas, dashas, mundane prashna, muhurta, remedy and other aspects of interest. The advantage of this would be that both students and those who want to pursue research can progress the understanding of this science in a systematic manner. Also the complete set will be of great value to those in India and abroad who want to understand various levels and will give them the flexibility of dwelling into the complexities in a coherent manner. With the growing interest to learn this science in various countries, the readers there will find this series of books very useful. This is the first book in the series and is the most important. The foundation is based on the principles of basic astrology propounded by various schools of thought. The book covers signs, their impact, the planetary impact in each sign, the role of depositors, details on each planet and their relationship when in aspect and in the divisional charts as also the complexities they can pose. This book attempts at conveying that the basic importance has to be given to the planets, their placement and various relationship as a result of the same. The yogas, dasha, nakshatras etc. will be dealt in the other books that follow, but all have to be applied keeping in mind the first basic principles that are being enumerated in this book.

Chanakya the real author of this work, after whose name this book has been named, was one of the Ministers of the Rajah Chandragupta of Magadh Desh, now called Patna, which stands

on the banks of the Ganges. It was then an independent sovereignty and ruled by the kings of the Gupta Dynasty, which, on its downfall, was succeeded by the Nanda Dynasty. Chanakya was a great poet and one of the eminent Sanskrit Scholars of his day. Chanakya Niti Darpan means, a looking glass, in which politics by Chanakya may be viewed. It contains 343 couplets and has been divided into 17 chapters, each containing 20 couplets, more or less. This work met with the approval and approbation of every Sanskrit scholar and gained such a publicity that one who had even the least knowledge of the Sanskrit language, could hardly plead his ignorance of this book. Later on, commentaries on Bhasha, or the vernacular language of the country, were published for the use of those who could not understand the original Sanskrit text. Sanskrit Grammar is so difficult that one, without its thorough knowledge, cannot understand Sanskrit sentences or couplets and the perfect mastery of the Grammar means years and years together and sometimes the whole life of a man of middle class intellect.

Astrology can be considered a useful branch of knowledge only if its concepts and principles could be applied to assess the personality and life of a person, and to look into the years ahead to tell him as to what is in store for him. The Signs, Houses and Planets are the three basic factors which need to be understood clearly for developing successful predictive ability. In PREDCTIVE ASTROLOGY--AN INSIGHT, rules and facts pertaining to each of these factors have been given and the effect of one factor on the other has been analysed in a very comprehensible and instructive manner. For timing the events in the life of a person correctly, the Vimshottari Dasa System has been rationalised to fit the calendar

in vogue and details of supportive transit indications have also been given. This book is a manual of practical astrology designed to enable the reader to handle queries relating to various facets of everyday life successfully.

Among various Vargas, the relative importance of Navamsha is universally acclaimed. Astrologers consider it to be just next to birth chart or equal to birth chart or even better than the birth chart. Almost all astrologers use Navamsha and birth chart together to assess strengths of various houses and planets before giving any opinion. In Vedic astrology, Navamsha occupies an outstanding position and draws one's attention for deeper understanding/ scrutiny due to its multifarious technique and usage. The additional inputs in the form of scintillating concepts by Jaimini and Nadi system have made the subject more engrossing. The author has tried to incorporate the same in the book. The study of a birth chart gives only the gross (Sthool) indications of characteristics of various houses and planets; while Navamsha offers their detailed (Sookshmatar) values. It is so because a Navamsha is basically equal to both in its size and extent to a quarter/ one fourth / pada of a Nakshtra, thereby giving it a stellar role. While a house represents a combined spectrum of 30 degrees, a Navamsha provides a microscopic view of 3° 20' or 1/ 9 part of a sign only.

Excerpt from First Book of Sanskrit: Being an Elementary Treatise on Grammar, With Exercises Tur. Study of Sanskrit has but recently risen in the estimation of the educated natives of this Presidency and of our Educational authorities. The old Sanskrit College of Poona owed its existence and continuance rather to 0. Spirit of

conciliation and tolerance in our rulers, than to their conviction of the utility of Sanskrit as a branch of general education. The modern critical and progressive spirit was not brought to bear upon it. The old Sastriks were allowed to carry all things in their own way. After about thirty years since its establishment, the authorities began to exercise active interference, until at length the College was abolished, and a new system inaugurated, which to be complete and effective, requires, in my humble opinion, a partial restoration of the old institution.
