Lesson 7: Introduction to the Access Database 195
• A Table is an object which represents the data in rows and columns, rather like a spreadsheet. For this reason, when you view a table in an Access

database, you are in what Access refers to as a Datasheet View. You will learn about Tables in this lesson. • A Query is an object which makes a request to the database to find some set of data that

7 INTRODUCTION TO THE Keeping student records ACCESS DATABASE

This paper proposes to manage such expressions as data in Relational Database Systems (RDBMS). This is accomplished 1) by allowing expressions to be stored in a column of a database table and 2) ...

(PDF) Database Systems: The Complete Book

Database Systems: The Complete Book is ideal for Database Systems and Database Design and Application courses offered at the junior, senior and graduate levels in Computer Science departments. A basic understanding of algebraic expressions and laws, logic, basic data structure, OOP concepts, and programming environments is implied.
