You could purchase guide drupal 7 le web development beginners guide or get it as soon as feasible. You could

Drupal 6 was released on February 13, 2008, on March 5, 2009 Buytaert announced a code freeze for Drupal 7 for September 1, 2009. Drupal 7 was released on January 5, 2011, with release parties in several countries. After that, maintenance on Drupal 5 stopped, with only Drupal 7 and Drupal 6 maintained.

Getting Started. Read the Local Development Guide to create and install a new Drupal application on your local machine for the purpose of development.. After it's up and running, learn how to plan, extend, and customize a Drupal 8 application by reading the Drupal 8 User Guide.. For more documentation read the Official Guides, Community Guides, and Drupal API Reference.

Enter the Drupal 7 services module. In this series Joe Shindelar will walk through using the services module and teach you how to create a RESTful web services API that exposes Drupal's internal data like nodes and users as JSON or XML that can be easily consumed by a huge variety of clients and programming languages.
I think the combination of a methodical progression through the world of Drupal 7, combined with lots of examples, makes this book invaluable. I'll still be using Drupal 6 for awhile, but there is enough similarity between versions that I will be consulting this book when I update my web site with a modified theme and some other new elements.

Friendly and powerful: Drupal 7 We are proud to present to you our best work yet – Drupal 7, the friendly and powerful content management platform for building nearly any kind of website: from blogs and micro-sites to collaborative social communities.

The Video Filter module allows you to easily embed videos into Drupal sites using a simple token ([video:url]). Setting up the module is pretty straight forward. All you have to do is enable the filter in a desired text format, adjust the order of the existing filters, and you're done. The embed code for YouTube and many other video sites is an iframe HTML tag.
