757 - OCONNELL COLON

Brenden Vetch has a gift. With an innate sense he cannot explain to himself or describe to others, he connects to the agricultural world, nurturing gardens to flourish and instinctively knowing the healing properties each plant and herb has to offer. But Brenden's gift isolates him from people—and from becoming part of a community. Until the day he receives a personal invitation from the wizard Od. She needs a gardener for her school in the great city of Kelior, where every potential wizard must be trained to serve the Kingdom of Numis. For decades the rulers of Numis have controlled the school, believing they can contain the power within

it—and punish any wizard who dares defy the law. But unknown to the reigning monarchy is the power possessed by the school's new gardener—a power that even Brenden isn't fully aware of, and which is the true reason Od recruited him...

Now that high school is over, Ari is dying to move to the big city with his ultra-hip band—if he can just persuade his dad to let him quit his job at their struggling family bakery. Though he loved working there as a kid, Ari cannot fathom a life wasting away over rising dough and hot ovens. But while interviewing candidates for his replacement, Ari meets Hector, an easygoing guy who loves baking as much as Ari wants to escape it. As they become closer over batches of

bread, love is ready to bloom . . . that is, if Ari doesn't ruin everything. Writer Kevin Panetta and artist Savanna Ganucheau concoct a delicious recipe of intricately illustrated baking scenes and blushing young love, in which the choices we make can have terrible consequences, but the people who love us can help us grow.

and fresh converts alike, and including an all-new afterword from Tamora Pierce. Thirteen-year-old Daine has always had a special connection with animals, but only when she's forced to leave home does she realize it's more than a knack—it's magic. With this wild magic, not only can Daine speak to animals, but she can also make them obey her. Daine takes a job handling horses for the Queen's Riders, where she meets the master mage Numair and becomes his student. Under Numair's guidance, Daine explores the scope of her magic. But she encounters other beings, too, who are not so gentle. These terrifying creatures, called Immortals, have been imprisoned in the Divine Realms for the past four hundred years—but now someone has broken the barrier. And it's up to Daine and her friends to defend their world from an Immortal attack.

"There was once a King, and he had a Queen; and he was the manliest of his sex, and she was the loveliest of hers. The King was, in his private profession, Under Government. The Queen's father had been a medical man out of town. They had nineteen children, and were always having more. Seventeen of these children took care of the baby; and Alicia, the eldest, took care of them all. Their ages varied from seven years to seven months. One day the King was going to the office, when he stopped at the fishmonger's to buy a pound and a half of salmon not too near the tail, which the Queen had requested him to send home. Mr Pickles, the fishmonger, said, "Certainly, sir, is there any other article, Good-morning." But what of the old lady in the shop? The King hadn't noticed her and she is VERY important to this story for she is the Good Fairy Grandmarina. But just how important you ask? Well, you'll just have to download and read this story and find out for yourselves!"

Fish Don't Exist is a dark and astonishing tale of love, chaos, scientific obsession, and—possibly—even murder. "At one point, Miller dives into the ocean into a school of fish...comes up for air, and realizes she's in love. That's how I felt: Her book took me to strange depths I never imagined, and I was smitten." —The New York Times Book Review David Starr Jordan was a taxonomist, a man possessed with bringing order to the natural world. In time, he would be credited with discovering nearly a fifth of the fish known to humans in his day. But the more of the hidden blueprint of life he uncovered, the harder the universe seemed to try to thwart him. His specimen collections were demolished by lightning, by fire, and eventually by the 1906 San Francisco earthquake—which sent more than a thousand discoveries, housed in fragile glass jars, plummeting to the floor. In an instant, his life's work was shattered. Many might have given up, given in to despair. But Jordan? He surveyed the wreckage at his feet, found the first fish that he recognized, and confidently began to rebuild his collection. And this time, he introduced one clever in-

novation that he believed would at last protect his work against the chaos of the world. When NPR reporter Lulu Miller first heard this anecdote in passing, she took Jordan for a fool—a cautionary tale in hubris, or denial. But as her own life slowly unraveled, she began to wonder about him. Perhaps instead he was a model for how to go on when all seemed lost. What she would unearth about his life would transform her understanding of history, morality, and the world beneath her feet. Part biography, part memoir, part scientific adventure, *Why Fish Don't Exist* is a wondrous fable about how to persevere in a world where chaos will always prevail.

Winner of the National Book Award for Fiction Introduction by Jhumpa Lahiri Bernard Malamud's first book of short stories, *The Magic Barrel*, has been recognized as a classic from the time it was published in 1959. The stories are set in New York and in Italy (where Malamud's alter ego, the struggling New York Jewish Painter Arthur Fidelman, roams amid the ruins of old Europe in search of his artistic patrimony); they tell of egg candlers and shoemakers, matchmakers, and rabbis, in a voice that blends vigorous urban realism, Yiddish idiom, and a dash of artistic magic. *The Magic Barrel* is a book about New York and about the immigrant experience, and it is high point in the modern American short story. Few books of any kind have

managed to depict struggle and frustration and heartbreak with such delight, or such artistry.
