Global Weirdness (Audiobook) by Climate Central | Audible.com

An intelligent primer on what experts know about global climate change, what they don't know, and what the future could bring. Written by scientists and journalists at Climate Central, a nonpartisan advocacy group, the book begins with what everyone, climate-change skeptic included, accepts: Carbon dioxide in the atmosphere traps the sun's heat.

-- Scientific American " Global Weirdness is probably the weirdest book about global warming you're going to read...because it's nonpartisan, making absolutely zero attempts to agitate for legislation."

Global Weirdness - The Drake Magazine
Global Weirdness by Climate Central (ebook)

A slim volume written in ELIF style, "Global Weirdness" describes the science behind global warming, the effects of greenhouse emissions, and the likely scenarios (best and worst case) for the the immediate and distant future.

Global Weirding | PBS

Global Weirdness : NPR

Global Weirdness. Jan 2 2013. Backyard Blvd. What winter 2013 will mean for singed fins across the country. Two years ago winter delivered. Snowpack stacked at 100-, 200-, and even 300-percent levels—depending on where in the West it dumped. A year later, La Nina bitch-slapped us with one of the worst droughts in recent winter memory.

"Global Weirdness" Excerpt — The Daily Beast Lemonick Gives Roker Wake-Up Call to 'Global Weirdness' — The Weather Channel's "Wake-Up with Al (Roker)"

Global Weirdness enlarges our understanding of how climate change affects our daily lives and arms us with the incontrovertible facts we need to make informed decisions about the future of the planet and of humankind.
