As for ham radio, the FCC has allocated a specific set of frequencies that start at the AM radio band at 1.6 MHz and end at 1240 MHz. This range includes two radio frequency bands, Very High Frequency (VHF), and Ultra High Frequency (UHF), each of which has its pros and cons. Very High Frequency (VHF)

Beginners Guide to Ham Radio, Make Your Own | EAGLE | Blog

In an earlier Off Grid Ham article I suggested that to enjoy QRP you could simply turn the transmit power down on your full power radio and go for it. That's fine for operating from home with the stuff you already have, but for true portable off grid ham radio, you'll have to commit to a QRP-specific transceiver.
