ous edition with extensive reorganization and 30-40% new material. ... the web sites for the 7th edition and the 8th edition are also available. ... All material provided on the SE9 website by Ian Sommerville is licensed ...

Software Engineering, 8th edition. This edition was really the 7th edition as it should have been. I added new chapters on security engineering, aspect-oriented software engineering and service-oriented software engineering. But sales continued to decline and I decided that I'd only do one more edition and then give up.

Software Engineering presents a broad per-

spective on software systems engineering, concentrating on widely used techniques for developing large-scale systems. The objectives of this seventh edition are to include new material on iterative software development, component-based software engineering and system architectures, to emphasize that system dependability is not an add-on but should be ...

Ian Sommerville is a full Professor of Software Engineering at the University of St. Andrews in Scotland, where he teaches courses in advanced software engineering and critical systems engineering. His research interest lies in complex, depend-

able systems.
