though life expectancy and survival rates in the United States have improved dramatically over the past century, Americans live shorter lives and experience more injuries and illnesses than people in other high-income countries. The U.S. health disadvantage cannot be attributed solely to the adverse health status of racial or ethnic minorities or poor people: even highly advantaged Americans are in worse health than their counterparts in other, "peer" countries. In light of the new and growing evidence about the U.S. health disadvantage, the National Institutes of Health asked the National Research Council (NRC) and the Institute of Medicine (IOM) to convene a panel of experts to

study the issue. The Panel on Understanding Cross-National Health Differences Among High-Income Countries examined whether the U.S. health disadvantage exists across the life span, considered potential explanations, and assessed the larger implications of the findings. *U.S. Health in International Perspective* presents detailed evidence on the issue, explores the possible explanations for the shorter and less healthy lives of Americans than those of people in comparable countries, and recommends actions by both government and nongovernment agencies and organizations to address the U.S. health disadvantage.

A young man describes his torment as he struggles to reconcile the diverse influences of Western culture and the traditions of his own Japanese heritage

The visionary author's masterpiece pulls us—along with her Black female hero—through time to face the horrors of slavery and explore the impacts of racism, sexism, and white supremacy then and now. Dana, a modern black woman, is celebrating her twenty-sixth birthday with her new husband when she is snatched abruptly from her home in California and transported to the antebellum South. Rufus, the white son of a

plantation owner, is drowning, and Dana has been summoned to save him. Dana is drawn back repeatedly through time to the slave quarters, and each time the stay grows longer, more arduous, and more dangerous until it is uncertain whether or not Dana's life will end, long before it has a chance to begin.

Winner of the OUTSTANDING FICTION AWARD - The Southern California Writers' Conference Set in Ghana, West Africa, 1785 to 1801 in Book 1, Folleyan, the long-awaited girl-child, in whom the fate of the clan exists, is adored and adventurous, and must be reminded that her name means "one who walks in dignity."

An essential story collection from one of the foremost novelists of the twentieth century, now a part of the Text Classics series How we raise young children is one of today's most highly personalized and sharply politicized issues, in part because each of us can claim some level of "expertise." The debate has intensified as discoveries about our development-in the womb and in the first months and years-have reached the popular media. How

can we use our burgeoning knowledge to assure the well-being of all young children, for their own sake as well as for the sake of our nation? Drawing from new findings, this book presents important conclusions about nature-versus-nurture, the impact of being born into a working family, the effect of politics on programs for children, the costs and benefits of intervention, and other issues. The committee issues a series of challenges to decision makers regarding the quality of child care, issues of racial and ethnic diversity, the integration of children's cognitive and emotional development, and more. Authoritative yet accessible, *From Neurons to Neighborhoods* presents the evidence about "brain wiring" and how kids learn to speak, think, and regulate their behavior. It examines the effect of the climate-family, child care, community-within which the child grows.

*Life Is Short—Art Is Shorter* is not just the first anthology to gather both mini-essays and short-short stories; readers, writers, and teachers will get will get an anthology; a course's worth of writing exercises; a rally for com-

pression, concision, and velocity in an increasingly digital, post-religious age; and a meditation on the brevity of human existence. 1. We are mortal beings. 2. There is no god. 3. We live in a digital culture. 4. Art is related to the body and to the culture. 5. Art should reflect these things. 6. Brevity rules. The book's 40 contributors include Donald Barthelme, Kate Chopin, Lydia Davis, Annie Dillard, Jonathan Safran Foer, Barry Hannah, Amy Hempel, Jamaica Kincaid, Wayne Koestenbaum, Anne Lamott, Daphne Merkin, Rick Moody, Dinty W. Moore, George Orwell, Jayne Anne Phillips, George Saunders, Lauren Slater, James Tate, and Paul Theroux.

"What does it mean to be lonely?" Dumm asks. His inquiry, documented in this book, takes us beyond social circumstances and into the deeper forces that shape our very existence as modern individuals. The modern individual, Dumm suggests, is fundamentally a lonely self. This book challenges us, not to overcome our loneliness, but to learn how to re-inhabit it in a better way.

A new edition of a classic work that originated the "embodied cognition"

movement and was one of the first to link science and Buddhist practices. This classic book, first published in 1991, was one of the first to propose the “embodied cognition” approach in cognitive science. It pioneered the connections between phenomenology and science and between Buddhist practices and science—claims that have since become highly influential. Through this cross-fertilization of disparate fields of study, *The Embodied Mind* introduced a new form of cognitive science called “enaction,” in which both the environment and first person experience are aspects of embodiment. However, enactive embodiment is not the grasping of an independent, outside world by a brain, a mind, or a self; rather it is the bringing forth of an interdependent world in and through embodied action. Although enacted cognition lacks an absolute foundation, the book shows how that does not lead to either experiential or philosophical nihilism. Above all, the book's arguments were powered by the conviction that the sciences of mind must encompass lived human experience and the possibilities for transformation inherent in human experi-

ence. This revised edition includes substantive introductions by Evan Thompson and Eleanor Rosch that clarify central arguments of the work and discuss and evaluate subsequent research that has expanded on the themes of the book, including the renewed theoretical and practical interest in Buddhism and mindfulness. A preface by Jon Kabat-Zinn, the originator of the mindfulness-based stress reduction program, contextualizes the book and describes its influence on his life and work.

From the internationally bestselling author of *The Vegetarian*, a “rare and astonishing” (*The Observer*) portrait of political unrest and the universal struggle for justice. In the midst of a violent student uprising in South Korea, a young boy named Dong-ho is shockingly killed. The story of this tragic episode unfolds in a sequence of interconnected chapters as the victims and the bereaved encounter suppression, denial, and the echoing agony of the massacre. From Dong-ho's best friend who meets his own fateful end; to an editor struggling against censorship; to a prisoner and a factory worker, each suffering from traumatic

memories; and to Dong-ho's own grief-stricken mother; and through their collective heartbreak and acts of hope is the tale of a brutalized people in search of a voice. An award-winning, controversial bestseller, *Human Acts* is a timeless, pointillist portrait of an historic event with reverberations still being felt today, by turns tracing the harsh reality of oppression and the resounding, extraordinary poetry of humanity. Shortlisted for the International Dublin Literary Award Amazon, 100 Best Books of 2017 *The Atlantic*, “The Best Books We Read in 2017” *San Francisco Chronicle*, “Best of 2017: 100 Recommended Books” *NPR Book Concierge*, 2017's Great Reads *Library Journal*, “Best Books of 2017” *Huffington Post*, “Best Fiction Books of 2017” *Medium*, Kong Tsung-gan's “Best Human Rights Books of 2017” Offering new opportunities to think and write critically about literature, this classic anthology continues to provide a rich selection of stories, poems, plays, and essays in a flexible arrangement that invites students to explore the essential themes of humanity.

*The Book of Songs* (or *Shi-*

jing), the oldest existing anthology of Chinese poetry, comprises 305 works created over centuries. Some feature lyrics in simple language that reflects the common people, addressing love and courtship, political satire, and protest. Others focus on court life and dynasties; nearly all rhyme. This stunning dual-language edition features 32 beautiful verses, including "Se Miu," about a man exhaustedly working for the king, and "Odes Of Yong (Bo Zhou)," a melancholy love poem.

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY People • O: The Oprah Magazine • Financial Times • Kansas City Star • BookPage • Kirkus Reviews • Publishers Weekly • Booklist NEW YORK TIMES BESTSELLER "A stunner."—Justin Cronin "It's never the disasters you see coming that finally come to pass—it's the ones you don't expect at all," says Julia, in this spell-binding novel of catastrophe and survival by a superb new writer. Luminous, suspenseful, unforgettable, *The Age of Miracles* tells the haunting and beautiful story of Julia and her family as they struggle to live in a time of extraordinary change. On an ordinary Saturday in a Cal-

ifornia suburb, Julia awakes to discover that something has happened to the rotation of the earth. The days and nights are growing longer and longer; gravity is affected; the birds, the tides, human behavior, and cosmic rhythms are thrown into disarray. In a world that seems filled with danger and loss, Julia also must face surprising developments in herself, and in her personal world—divisions widening between her parents, strange behavior by her friends, the pain and vulnerability of first love, a growing sense of isolation, and a surprising, rebellious new strength. With crystalline prose and the indelible magic of a born storyteller, Karen Thompson Walker gives us a breathtaking portrait of people finding ways to go on in an ever-evolving world. "Gripping drama . . . flawlessly written; it could be the most assured debut by an American writer since Jennifer Egan's *Emerald City*."—The Denver Post "Pure magnificence."—Nathan Englander "Provides solace with its wisdom, compassion, and elegance."—Curtis Sittenfeld "Riveting, heart-breaking, profoundly moving."—Kirkus Reviews (starred review) Look for

A brilliant satire of mass culture and the numbing effects of technology, *White Noise* tells the story of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and his fourth wife, Babette, bound by their love, fear of death, and four ultra-modern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over their lives, an "airborne toxic event" that is a more urgent and visible version of the white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the music of American magic and dread.

Literature: *The Human Experience* is based on a simple premise: All students can and will connect with literature if the works they read are engaging, exciting, and relevant. Accordingly, every edition of this classroom favorite has featured a broad range of enticing stories, poems, plays, and essays that explore time-

less, ever-resonant themes: innocence and experience, conformity and rebellion, culture and identity, love and hate, life and death. The affordable new edition (a third less expensive than comparable anthologies) opens students eyes to a more contemporary selection of writing, while continuing to help them see, and write about, illuminating connections to literature past and present, lives near and far, and experiences that are enduringly human.

An immensely persuasive work of literary criticism that opens a new chapter in the American dialogue

on race—and promises to change the way we read American literature—from the acclaimed Nobel Prize winner Morrison shows how much the themes of freedom and individualism, manhood and innocence, depended on the existence of a black population that was manifestly unfree--and that came to serve white authors as embodiments of their own fears and desires. According to the Chicago Tribune, Morrison "reimagines and remaps the possibility of America." Her brilliant discussions of the "Africanist" presence in the fiction of Poe, Melville, Cather, and Hemingway leads to a dramat-

ic reappraisal of the essential characteristics of our literary tradition. Written with the artistic vision that has earned the Nobel Prize-winning author a pre-eminent place in modern letters, *Playing in the Dark* is an invaluable read for avid Morrison admirers as well as students, critics, and scholars of American literature.

Presents a controversial history of violence which argues that today's world is the most peaceful time in human existence, drawing on psychological insights into intrinsic values that are causing people to condemn violence as an acceptable measure.
