Masculinities and femininities refer to the social roles, behaviors, and meanings prescribed for men and women in any society at any time. Such normative gender ideologies must be distinguished from biological 'sex,' and must be understood to be plural as there is no single definition for all men and all women.

Masculinity, Class and Same-Sex Desire in Industrial England, 1895-1957 explores the experiences of men who desired other men outside of the capital. In doing so, it offers a unique intervention into the history of sexuality but it also offers new ways to understand masculinity, working-class culture, regionality and work in the period. The participants engaged in bud-sex, a specific type of male-male sex that reinforced their rural masculinity and heterosexuality. The married men framed sex with men as less threatening to marriage than extramarital sex with women, helping to preserve a part of their lives that they described as central to their straightness.
