## E89 - RIVERS KENDALL

Move Fast and Break Things is the riveting account of a small group of libertarian entrepreneurs who in the 1990s began to hijack the original decentralized vision of the Internet, in the process creating three monopoly firms--Facebook, Amazon, and Google--that now determine the future of the music, film, television, publishing and news industries.

"Move fast and break things" is the approach that Mark Zuckerberg said he inculcates into the development culture at Facebook. While it sounds wonderful for getting new features up and running quickly (even if they are not perfect), it loses its luster if you try to apply that same approach to embedded development.

Many of today's entrepreneurs live by Facebook founder Mark Zuckerberg's now-famous motto: "Move fast and break things." Zuckerberg intended for this to inform internal design and ...
