It is one of eight stories in the cycle collected as His Last Bow, and is the second and final appearance of Mycroft Holmes. Doyle ranked "The Adventure of the Bruce-Partington Plans" fourteenth in a list of his nineteen favourite Sherlock Holmes stories. The monotony of thick smog-shrouded London is broken by a sudden visit from Holmes' brother Mycroft. He has come about some missing, secret submarine plans. Seven of the ten pages - three are still missing - were found with Arthur Cadogan West's body. He was a young clerk in a government office at Royal Arsenal, Woolwich, whose body was found next to the Underground tracks near the Aldgate tube station, his head crushed. He had little money with him (although there appears to have been no robbery), theatre tickets, and curiously, no Underground ticket. The three missing pages by themselves could enable one of Britain's enemies to build a Bruce-Partington submarine.

Sherlock Holmes has spoken little on the events following his fall and 'death' at the Reichenbach falls, his miraculous return has always been shrouded deep in mystery. Only the scantest of details has ever been told even to his closest friend Doctor Watson. That is until one fateful Christmas day when Holmes receives a letter which prompts him to finally open up and enlighten his friend on one of the most harrowing and twisted cases he has ever investigated whilst working under the alias of Norwegian Explorer Sigerson during the Christmas of 1893. Reluctantly teaming with his elder slothful brother Mycroft and forming the most unlikely of alliances with 'The Woman' Irene Adler the trio set out to halt a spate of seasonal themed killings that have left a sleepy Sussex village with a fear of the festivities. But will the combined intelligence of the Holmes Brothers and the resourceful Woman be enough to track down the killer and prevent any more killings indeed in time for Christmas? Based on the 2010 Christmas Special of the hit Sherlock Holmes web drama comedy 'No Place Like Holmes'.

Amateur detective Sherlock Holmes, the master of deductive reasoning, solves several mysteries with the aid of his friend, Dr. John Watson.

The game is afoot! Night Shade Books is proud to present the fantastic adventures of the world's greatest detective — mystery, fantasy, science fiction, horror, no genre can escape the esteemed detective's needle-sharp intellect and intuition. It's been one-hundred years since Watson died and Mycroft still doesn't understand what Sherlock saw in having such a companion. But after so long alone, and somehow still as young, he is starting to wonder what it might be like to have a disciple of his own. Life for Amelia Jones is dull, she's spent all her years writing about the adventures other people have, and then she meets the Holmes brothers. Can she persuade the most intelligent person in the world to trust her? And if she does, can she survive the danger that surrounds them? The First Lessons are three tales of crime, mystery and terrorism as four of the brightest people dance through the politics of nations. Only time will tell who survives and who comes out on top.

It is summer 1890 and the game is afoot. When an elephant escapes from the London Zoological Gardens, Holmes and Watson become embroiled in one of their strangest cases yet. Engaged by a jeweller in fear for his life, the trail leads Sherlock to two secret societies, each pursuing the eight ruby elephants said to unlock a vault containing the lost Nizam diamond. Standing in his way are some deadly foes: the Archangels: assassins in top hats and tailcoats, hell bent on the murder of the great detective and the acquisition of the treasures of the realm. The adventure leads the intrepid pair to Lord's Cricket Ground, the Royal Albert Hall, a bizarre series of thefts at the National Gallery, deepest rural Suffolk and ultimately the very heart of the Empire. With high speed chases on Penny Farthings and a cast of eccentric characters, it takes all of Holmes' ingenuity - and a little help from Mycroft - to unravel this elephantine mystery.

Ronald Adair, a quiet young man whose only hobby was playing cards, got killed. Watson attempted to crack the case but with no success. One day he decided to examine the area around the victim's house and then he ran into a strange old man. Who is he? Can it be the murderer who came back to the crime scene in disguise? Or the old man is simply a witness? Will Watson find out what happened by applying Holmes' methods or this will not be enough? You can find the answers in "The Adventure of the Empty House" which is a part of "The Return of Sherlock Holmes". He trained as a doctor, gaining his degree from Edinburgh University in 1881. He worked as a surgeon on a whaling boat and also as a medical officer on a steamer travelling between Liverpool and West Africa. He then settled in Portsmouth on the English south coast and divided his time between medicine and writing. Sherlock Holmes made his first appearance in 'A Study of Scarlet', published in 'Beeton's Christmas Annual' in 1887. Its success encouraged Conan Doyle to write more stories involving Holmes but, in 1893, Conan Doyle killed off Holmes, hoping to concentrate on more serious writing. A public outcry later made him resurrect Holmes. In addition, Conan Doyle wrote a number of other novels, including 'The Lost World' and various non-fictional works. These included a pamphlet justifying Britain's involvement in the Boer War, for which he was knighted and histories of the Boer War and World War One, in which his son, brother and two of his nephews were killed. Conan Doyle also twice ran unsuccessfully for parliament. In later life he became very interested in spiritualism.
