Robert Frank turned to filmmaking at the end of the 1950s. Although he has made 27 films, the work is largely a wellkept secret. Frank approaches each film project as a new experience, challenging the medium and its possibilities at every turn. He has amalgamated documentary, fiction, and autobiography, cutting across genres. This book offers a visually unique approach to Frank's films: only new stills taken from videotapes have been used and they add up to a visual essay on Frank's cinema that establishes an engaging dialogue with his photographic work. Each film is introduced with detailed analysis, discussing the history and the aesthetics of Frank's film work. An interview with Allen Ginsberg provides an insider view. Together the texts and images offer an innovative and in-depth approach to the oeuvre of one of the greatest and most restless artists of the 20th century. Robert Frank was born in Zurich, Switzerland in 1924 and went to the United States in 1947. He is best known for his seminal book *The Americans* (1958), which gave rise to a distinct new art form in the photo-book, and his experimental film *Pull My Daisy* (1959) both reproduced by Steidl within *The Robert Frank Project*.

Based on comparative readings of contemporary books from Latin America, Spain, and the United States, the essays in this book present a radical critique against strategies of literary appropriation that were once thought of as neutral, and even concomitant, components of the writing process. Debunking the position of the author as the center of analysis, Cristina Rivera Garza argues for the communality—a term used by anthropologist Floriberto Díaz to describe modes of life of Indigenous peoples of Oaxaca based on notions of collaborative labor—permeating all writing processes. Disappropriating is a political operation at the core of projects acknowledging, both at ethical and aesthetic levels, that writers always work with materials that are not their own. Writers borrow from the practitioners of a language, entering in a debt relationship that can only be covered by ushering the text back to the communities from which it grew. In a world rife with violence, where the experiences of many are erased by pillage and extraction, writing among and for the dead is a form of necrowriting that may well become a life-affirming act of decolonization and resistance.

"An eye-opening dazzler" (Stephen King) about a pair of globetrotting, gore-obsessed journalists whose entanglement in a French philosopher's death becomes a surreal journey into global conspiracy from legendary filmmaker David Cronenberg. Stylish and camera-obsessed, Naomi and Nathan thrive on the yellow journalism of the social-media age. Naomi finds herself drawn to the headlines surrounding a famous couple, Célestine and Aristide, Marxist philosophers and sexual libertines. Célestine has been found dead, and Aristide has disappeared. Police suspect him of killing her and consuming parts of her body. Yet Naomi sets off to find him, and as she delves deeper into the couple's lives, she discovers the news story may only skim the surface of the disturbing acts they performed together. Journalist Nathan, meanwhile, is in Budapest photographing the controversial work of an unlicensed surgeon named Zoltán Molnár, once sought by Interpol for organ trafficking. After sleeping with one of Molnár's patients, Nathan contracts a rare STD called Roiphe's and travels to Toronto, determined to meet the man who discovered the syndrome. Dr. Barry Roiphe, Nathan learns, now studies his own adult daughter, whose bizarre behavior masks a devastating secret. These parallel narratives become entwined in a gripping, dreamlike plot that involves geopolitics, 3-D

printing, North Korea, the Cannes Film Festival, cancer, and, in an incredible number of varieties, sex. Consumed is an exuberant, provocative debut novel from one of the world's leading film directors, a writer of "fierce sculptural intensity" (Jonathan Lethem, *The New York Times Book Review*) who makes it "impossible to look away" (*Publishers Weekly*).

During the final months of his life, Walt Disney was consumed with the world-wide problems of cities. His development concept at the time of his death on December 15th, 1966 would be his team's conceptual response to the ills of the inner cities and the sprawl of the megalopolis: the Experimental Prototype Community of Tomorrow or, as it became known, EPCOT. This beautifully written, instantly engrossing volume focuses on the original concept of EPCOT, which was conceived by Disney as an experimental community of about 20,000 people on the Disney World property in central Florida. With its radial plan, 50-acre town center enclosed by a dome, themed international shopping area, greenbelt, high-density apartments, satellite communities, monorail and underground roads, the original EPCOT plan is reminiscent of post-war Stockholm and the British New Towns, as well as today's transit-oriented development theory. Unfortunately, Disney himself did not live long enough to witness the realization of his model city. However, EPCOT's evolution into projects such as the EPCOT Center and the town of Celebration displays a remarkable commitment by the Disney organization to the original EPCOT philosophy, one which continues to have relevance in the fields of planning and development.
