This workbook combines methodology and practice for beginning translators with a solid proficiency in French. It assumes a linguistic approach to the problems of translation and addresses common pitfalls, including the delineation of "translation units", word polysemy, false cognates, and structural and cultural obstacles to literal translation. The first part of the book focuses on specific strategies used by professionals to counter these problems, including transposition, modulation, equivalence, and adaptation. The second part of the book provides a global application of the techniques taught in the opening sections, guiding the student through step-by-step translations of literary and non-literary excerpts. The revised edition clarifies some of the finer points of the translation techniques introduced in the first edition, provides extra practice exercises, and offers information on a website that can be used in class.

Josh Clark and Chuck Bryant started the podcast *Stuff You Should Know* back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making *Stuff You Should Know* one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book for the first time—featuring a completely new array of subjects that they've long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of

everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost.
