**The Professional Guinea Pig | Rakuten Kobo Australia**

Roberto Abadie has written an absorbing ethnographic study of clinical trials that focuses not on the clinic or the clinicians, the science or its development, but the research participants in phase one trials (the first stage of testing in humans).

The Professional Guinea Pig documents the emergence of the professional research subject in Phase I clinical trials testing the safety of drugs in development. Until the mid-1970s Phase I trials were conducted on prisoners. After that practice was outlawed, the pharmaceutical industry needed a replacement population and began to aggressively recruit healthy, paid subjects,
